Principal's Message

We had our first P&C meeting on Monday night since the restriction eased. Thank you to those parents who came along. The P&C will have their Christmas dinner on Monday, 6th December. The venue is still being decided. If you would like to attend, please let the office know and we will keep you up to date with arrangements.

Year 6 have their high school orientation day on Tuesday, 23 November. Parents will need to take their child to and from the high school. Please check the details of where to drop students off and where to pick them up from.

Kindergarten Orientation started this week. We have been fortunate to be able to hold the transition program, even though it is shorter than in previous years. We welcome our new families and hope that your children benefit from the transition program so that they are ready to start school in the new year.

Year 6 teachers are working with the Year 6 students to plan the Year 6 Farewell. Students opted to have the event here at school and have chosen the 'Summer-time' theme.

We are able to have school photos and order forms have been sent home. We are to take all photos outside and only individually. Parents will be able to purchase the class photos but they will be the individual photos grouped together.

2022 Planning

In order to be well prepared for the new year we need to know exact student numbers. If your family is planning to move, please let us know as soon as you can.

Teachers are working on developing class lists for 2022 and up to date information would be really handy.

Kindergarten 2022 Enrolments

Do you know any family or friends within the Goulburn North community who have children beginning Kindergarten next year?

If you do, don't forget to collect and submit an enrolment form for Kindergarten 2022.

COVID-19 permitting we will hold a transition to school program and hold interviews with parents and caregivers to support the transition to school in Term 4 , ensuring a smooth and successful start to Kindergarten.

Enrolment packs can be collected from the office or accessed online at:

<https://goulburnnp.schools.nsw.gov.au/about-our-school/enrolment>

Bailey and Shelby each won a voucher to the value of \$15 at the book fair for their efforts in the colouring-in competition.

School Banking News

On 24 October 2021, the Treasurer and Minister for Education and Early Childhood Learning, the Hon. Sarah Mitchell MLC, announced that school banking programs will no longer be run in New South Wales schools from 2022.

School banking programs at Goulburn North Public School are arranged at a local level directly with the school. With the upcoming cessation of the program, students will no longer be able to deposit savings through the school banking program at Goulburn North. You can still keep your child's bank account open and can continue to make deposits into your child's accounts through online transfer or at any bank branch. More information is available on the department's school banking website and Commonwealth Bank of Australia's school banking website.

The decision was made following the review of the Australian Securities and Investments Commission (ASIC) on 15 December 2020, which found that the costs of the program outweighed the benefits.

Key findings of the review include:

- School banking programs claim to help children develop long term saving habits; however, providers were unable to demonstrate that these programs in and of themselves improve savings behaviour;
- Payments to schools for implementing school banking programs incentivise schools to encourage greater participation in the programs;
- Young children are vulnerable consumers and are exposed to sophisticated advertising and marketing tactics by school banking program providers;
- School banking program providers fail to effectively disclose that a strategic objective of these programs is customer acquisition.

Financial literacy is embedded in the curriculum K-10. It is part of a continuum of learning in the *work and enterprise* learning across the curriculum content area from K-12. In Mathematics K-10, students develop knowledge, understanding and skills specifically related to financial literacy, such as money, financial transactions, pay rates, taxable income, rebates and levies. In Stages 4 and 5 many students elect to study commerce. A key objective of the Years 7-10 commerce syllabus is for students to develop skills in decision-making and problem-solving in relation to consumer and financial issues they may encounter now and in the future. Opportunities also exist for the inclusion of financial literacy in the mandatory Life Ready course in Stage 6.

To further support our students with financial literacy education, the department launched the [Treasurer's Financial Literacy Challenge](#) in collaboration with ASIC. The challenge is currently in pilot intended for students in Years 5 to 8 but open to all. The challenge aims to engage students in practical activities focused on making informed financial choices, setting goals and managing money.

3/4D have been cooking. They are practising working mathematically to halve and double ingredients to cater for given numbers of people.

What a fun way to learn about fractions, doubling and halving volumes.

And best of all..... They got to eat their lesson!

YUM!!!

5/6Q turned their classroom into a **STARBOOKS Café** for the day.

Students chose books to read, then wrote a review of the book for others to read.
